27 August 2019

Approved

At 6:30 p.m., Tuesday, 27 August 2019, Zoning Administrator John Kemen called to order a duly published and posted public hearing. Planning Commission members Leslie Orvis, Jeff Schlaeger, Priscilla Schneider, and Duane Swanson were present. Supervisors Wayne Olson and Marshall Pearson and Septic Inspector Amy Thompson also attended. Approximately five members of the public were present.

Administrator Kemen noted the purpose of the hearing was to receive testimony on the proposed updates to the Royalton Township Subsurface Sewage Treatment Systems Ordinance. He noted that these changes are necessary to comply with Pine County's ordinance. Copies of the proposed ordinance showing track changes from the current one and a clean copy including the changes were available. Septic Inspector Thompson reviewed the changes noting that the remediation period for imminent health threat systems had been reduced to 15 days, that holding tank requirements had been altered, and that certain minor repairs did not require a permit. Clerk Swanson noted that additional grammatical and editorial changes, not resulting in any changes of meaning, had also been included. Planning Commission members and audience participants discussed the changes. No changes to the proposed ordinance wording were suggested during the hearing. Clerk Swanson reported that no verbal or written comments had been received prior to the meeting.

After asking if anyone still wished to speak, and hearing no one, Administrator Kemen declared the hearing adjourned at 6:45 p.m.

Respectfully submitted,

Duane P. Swanson, Clerk

ATTEST:

_____, John Kemen, Zoning Administrator

_____, Leslie Orvis, Planning Commission Chair

_____, Jeff Schlaeger, Planning Commission Member

_____, Priscilla Schneider, Planning Commission Membe
