There was sign discussion about size, business advertising, and safety.

The winery has erected two non-lit professionally made 44" x 77" signs advertising their business at the ends of Canary Drive and Harvest Road.

This is from the Aug 26, 2014 approved minutes: "After more discussion about signage size, numbers, and locations, motion by Supervisor Orvis to approve a variance for a 15 square foot sign to be located at the end of the driveway at 6916 Canary Road; Grasston, second by Supervisor Olson, motion carried unanimously, with Chair Pearson voting aye, Supervisor Orvis voting aye, and Supervisor Olson voting aye.

Leslie Orvis will verify with Zoning Administrator John Kemen to see if a permit has been issued to the Winery.

There was discussion about sending a letter about the understanding of what was approved. Include a copy of that part of the ordinance for their information. With the pertinent part highlighted.

It almost time for the renewal of the Winery's Conditional Use Permit.
